

Resident Evil

CAPCOM

Plenty of Zombie splatting action in console conversion.

Comments: Resident Evil = high expectations. Maybe even a little too high perhaps? The Zombie count is predictably large, although it doesn't look like much time or attention was spent on the backdrops! However, the vibrate function when the zombies attack adds nicely to the action.

Availability: Sharp GX10 on Vodafone

Courier Bob

MAXARTISTS

This might go some way to explaining what's happened to any of your missing post lately...!

Comments: Lantern-Jawed Courier Bob has a bit of a problem. The road layouts keep changing and he keeps crashing his post van, so it's up to you to make sure his path is always clear to collect the parcels and drop them in the postbox. Sounds easy enough, until you look at the screen and realise you can't see the roads that well in the first place due to the pale colours! It needs more clarity in the graphics department, but is an interesting little puzzler to kill some time.

Availability: Sony Ericsson T300, T310, T610 from the Sony Ericsson Fun and Downloads website

Courage the Cowardly Dog

MACROSPACE

Poor Courage isn't a brave soul, but he's got a house full of ghouls to deal with.

Comments: Armed with only a ray gun to shoot the various baddies, including the crafty Katz, Courage offers lots of fun for all ages.

Availability: Sharp GX10, GX20, Nokia 3510i, 3650, 5100, 6100, 6610, 7250 on Vodafone

VERDICT ●●●●●●●●●●

Ikari Warriors

ELITE

A wonderful arcade conversion. Rescue Colonel Cooke of the CIF US Forces who has been kidnapped by evil revolutionaries.

Comments: Rather than bother with complicated AI, the game simply sends you baddies to wipe

out in waves. The result? Hours of mindless (and rather hypnotic) bobbing, weaving and blasting. A similar admirable simplicity has gone into the look of the game too – the chunky graphics give a distinctive mini Rambo feel.

Availability: Nokia 3650, Sharp GX10, GX20 on Vodafone

Rugby Challenge

BLUE SPHERE GAMES

Just in case you're not sick of rugby already after the recent World Cup...

Comments: Nice to see something different, but would have been better if it were more playable! You control the team as a whole, but it's hard to see who to pass to and you'll commit fouls without knowing why. Frustrating.

Availability: Nokia 3510i, 6100, 6610, 7210, 7250, Siemens MT50 on T-Mobile

VERDICT ●●●●●●●●●●

Mappy

NAMCO

Constable Mappy has to retrieve stolen goods from the infamous Nyamco gang.

Comments: If you can get past how difficult the game can sometimes be, there's a lot of fun to be had. Thanks to the control system, you have to plan your route in advance, which makes this a must for both strategy gamers and platform fans.

Availability: Sharp GX10 on Vodafone

VERDICT ●●●●●●●●●●

Rotobotix

MORPHEME

Solve the mini puzzles to build a giant robot.

Comments: This is a strange game! The premise is to build a giant robot, but having played it we weren't aware of much building going on! The mini puzzles (which you access by travelling around the robot in a lift) are ok, but it feels like you're not actually making any real progress.

Availability: Most Nokia handsets on Orange
